There is much talk now to the ef lect that Governor Frear and Mott Smith are intending to tender their resignations to Woodrow Wilson di rectly following his inauguration, de spit the fact that it will be in the midst of the Territorial legislative ses sion. The Governor's present action would seem to hint at this stetp.

His interest in proposed legislation tem for Honolulu, the public utilities act, workmen's compensation meas ure and others shows no abatement but he appears inclined to shift some of the burden of urging their passage to others, so that his retirement in the middle of the session will have no direct influence on them. He already has partially passed the responsibility of fighting for a new city charter oveto a committee, which is to be form ed in the next fortnight of representatives from the commercial, improve ment and political organizations of

Honolulu. It is urged that while this does no mean he will be less active in the sup port of these measures, his withdrawal from the executive office will not retard or impair the campaign in their interest,

with tourists who are eager to make the trip. His idea is to secure the most comfortable steamer possible in order that the excuriosists will fee at the end of the trip that it was at excursion worth while.

Another important matter which has come up regarding Hawaii and the Ex position at San Francisco in 1915 is · the application by Dr. J. S. B. Pratt of the Board of Health, to the Board of Commissioners of the Fair for the establishment at the fair of a bureau of hygiene and dermography by Ha such an exhibit will go to show the people what a healthy place Hawaii is

It is estimated that the establish ment of such a bureau will require from \$1,400 to \$1,400 to complete is on the basis of the outline which has been submitted by Dr. Pratt. It is also planned to have an attendan present at the exhibit to give short talks on the health conditions of Ha waii, and to explain the various exhib its. The high tide of funds on hand in the territorial treasury has probably showing that at the close of business last evening there was on hand a total of \$3,490,925.73. This has been the month for paying taxes, and the sum BEING ABANDONED given includes the portion of the loan fund on hand, and special funds. A considerable amount will soon be apportioned among the counties, as their share of the taxes, and the surplus at hand will dwindle rapidly during the next few weeks or months.

After filing his petition three differnt times George Friedrich Rodiek at last has been admitted to citizenship in the United States. Each times he had failed to file his dectaration of intention, and once, when the court was inclined to admit him, c. S. District Attorney Breckons carried the case up , the First circuit cour; of appeals and won a verdict denying the citizenship. Today, under Section 4 of the naturalization laws of June 29, 1906, he was finally granted the coveted suffrage, this section permitting the admission of a man who has lived as a cause of misinformation.
